

Greenleaves Early Learning Bowden

A high-pressure clean to
shine more light on bright
young minds

OBJECTIVES

Green Leaves Early Learning Bowden needed its high windows, surrounding building, and entrance area cleaned. The objectives were to clean the high windows to allow more natural light into the centre and improve the overall appearance. The client requested the work be done outside of the centre's operating hours to minimise disruption.

SOLUTIONS

To address the specific job needs, we:

- arranged cleaning schedules over the weekend to ensure no disruption to the centre's daily activities
- hired a scissor lift to safely and efficiently reach the high windows.

AT A GLANCE

CHALLENGES

- Job needed to be done outside of opening hours.
- High-rise equipment required due to window height.

BENEFITS

- Cleaner windows, allowing more natural light in the centre.
- Improved building appearance.
- Increased building longevity.
- No interruption to centre's operations
- Customer satisfaction.

BENEFITS

Cleaner windows

Cleaner windows allow more natural light into the centre, creating a brighter environment.

Improved building appearance

Improved appearance of the building and entrance, making it more welcoming for children, parents, and staff.

Increased building longevity

Removing built-up dirt and tending to maintenance tasks as they arise helps prolong building integrity.

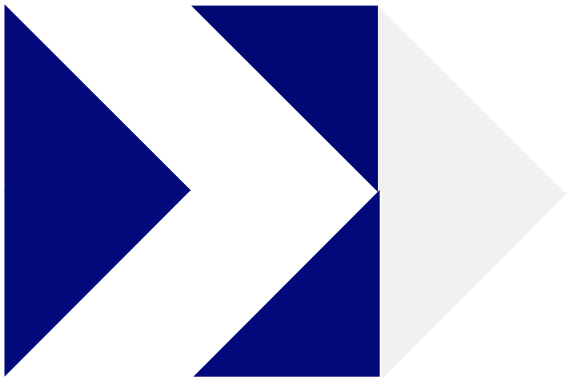

No interruption to staff or families

Cleaning was completed without any interruption to the centre's daily operations, ensuring smooth running of daily activities and unimpeded drop-off/pick-up of children.

Customer satisfaction

The client was impressed with the result and the flexibility shown to complete the work outside of centre hours. A regular cleaning schedule has been agreed.
