

Getting an Aldgate property ready for summer.

How a tennis court and gutter clean turned into a complete outdoor area makeover.

OBJECTIVES

Our client initially called us with a request to clean their tennis court and gutters. Impressed by the results, she asked us back to clean her solar panels, driveway, courtyard, pool area and pathways.

SOLUTIONS

We used a combination of cleaning equipment and techniques on the tennis court to avoid surface damage. For the gutters, we removed the gutter guards and cleared debris from both the gutters and the guards.

We gently washed the solar panels to avoid damage and used a combination of a concrete scrubber and pressure cleaner on the driveway, pool surrounds and patio area.

AT A GLANCE

CHALLENGES

- Removal and clean of gutter guards
- Cleaning equipment and methods were carefully considered for the different surfaces
- Dirt build-up over paved areas required extensive cleaning

BENEFITS

- Revitalised tennis court
- Functional gutters and solar panels
- Safer, more attractive driveway
- Maximised living space
- Customer satisfaction

TESTIMONIAL

Our client was so thrilled with the work, she has repeatedly referred new clients to us.

BENEFITS

Revitalised tennis court

Removal of accumulated dirt and debris provides a safer playing area, improves the court appearance and improves surface durability.

Functional gutters and solar panels

Clear gutters keep water moving away from the house and also reduce fire hazard in summer months. Clean solar panels ensure optimal energy production and cost savings.

Safer, more attractive driveway

Removing years of oil, grease and grime makes concrete driveways safer while improving the visual appearance of the property as a whole.

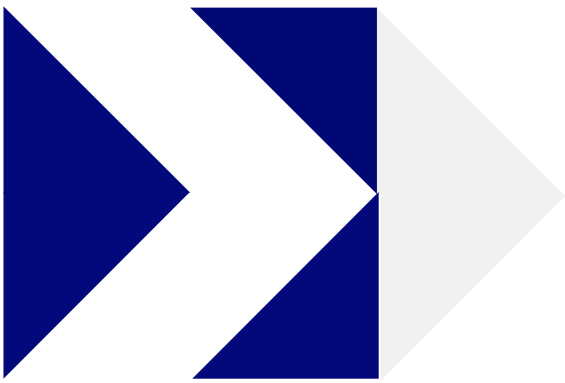

Maximised living space

Cleaning the paved courtyard and pool surrounds provided an inviting outdoor entertaining area to be enjoyed over the summer months.

Customer satisfaction

Our customer was very happy with the work provided. They can now relax knowing their property is ready for the entertaining season.
