

A deep clean and oil refinish at The Highway

Delivering a two-night deck restoration for one of Adelaide's busiest venues

OBJECTIVES

The Beer Garden deck at popular Adelaide hospitality venue, The Highway, is exposed to the elements, high foot traffic, and daily food and drink spills. Open 7 days a week, the client needed the deck cleaned and refinished without disrupting service. The goal was to lift deep-set dirt and sticky residue from the timber, restore the wood's appearance, and protect it with a heavy-duty oil treatment — all while working around customer and staff access.

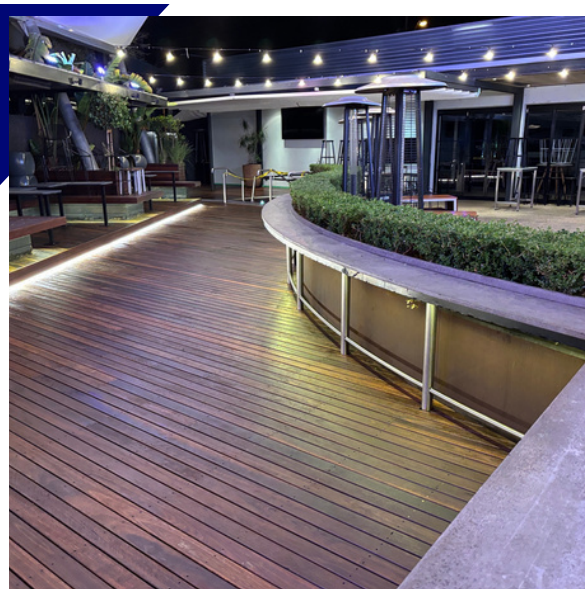

SOLUTIONS

The job was delivered over two consecutive nights to accommodate trading hours.

Night one - We applied a specialist wood cleaning solution and pressure cleaned the deck to lift built-up dirt and sticky substances without damaging the timber fibres.

Night two - Once the timber was dry and prepped, we applied two coats of heavy-duty decking oil to protect the surface from weather, stains, and wear.

Each stage was carefully timed to allow proper drying and curing while the area was quarantined to protect it between applications.

AT A GLANCE

CHALLENGES

- Overnight work required to avoid impacting service.
- Quarantining a high-traffic area to minimise interrupting customers and staff.
- Timing the application and drying required between venue opening hours.

BENEFITS

- Revitalised deck appearance.
- Extended asset life.
- Improved durability and slip resistance.
- Minimised disruption to trade.

BENEFITS

Revitalised deck appearance

The timber looks refreshed, clean, and well-maintained – raising the visual appeal of the outdoor area and presenting a professional image.

Extended asset life

Routine maintenance using recommended timber cleaners and sealants prolongs the deck's lifespan and mitigates larger repairs or replacement.

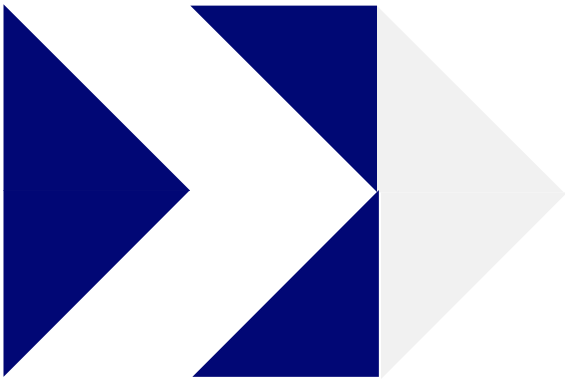

Improved durability and slip resistance

Heavy-duty oil protects the timber from moisture and wear, improves longevity and reduces the risk of slippery surfaces – especially important in busy licensed venues.

Minimised disruption to trade

We delivered a high-quality result by working overnight and managing the area safely with minimal impact to business operations.
